April 19, 2017

Migraine Management in the School Setting

Presented by *Mindy Meyer, APN, CPNP, Pediatric Neurology*
Northwestern Memorial Healthcare

Objectives:

- _The school nurse will be able to identify if a child is suffering from a minor headache or a more significant migraine.
- _The school nurse will be able to identify early symptoms of migraine pain, and how to prevent pain from becoming a full blown migraine.
- _The school nurse will be able to identify extreme symptoms of migraines and will learn how to proceed if students present with them.

This activity is being presented without bias or conflict of interest on the part of the IASN Planning team or the presenter.

This offering is being presented for 1.5 nursing Contact Hours
